

Yesterday you asked about the [REDACTED]
cable traffic in which we have been engaged.
Attached is a response to our most recent
cable (DIR 52247) indicating that the JCS
message had been forwarded to DD/S&T in
response to our first cable request. Registry
advised that you had forwarded the dispatch
to Mr. Duckett, so I retrieved the copy from
Tish today. I do not plan to respond to this
action cable unless ORD should have some
further questions.

25X1A

After you have reviewed this, I will forward the dispatch copy to ORD.
